That's What WME Does For me!

Vision

We are an innovative solutions
One-Stop-Shop for your business needs

Mission

Being innovative and creative in formulating
individual solutions that fulfill the needs and
capabilities of each client.

Our Story

Firm will, coordination and proper management skills were all our assets in this small office, which had shortly become incapable to accommodate our thoughts, ambitions and aspirations.

A computer and printer were all we got upon inception in 2008. From these started the journey of success, dream realization and pioneering in our business.

Today, we live as one family under the same ceiling of Elite Group of Companies, each of which has its own story that you are invited to read.

WM Elite Int'l Inc.

— US - based company —

Automotive Industry Solutions

WM Elite Int'l, Inc. specializes in the importing, exporting, financing, and brokering of high-end exotic, luxury, and classic automobiles throughout North America, Europe, and Asia.

With over 12- years-experience in the international automotive industry, we specialize in exotic sports cars, classics cars, and high-line automobiles. Bentley, Rolls Royce, Lamborghini, Ferrari, Bugatti, BMW and Mercedes Benz. We help our clients with locating rare antique and classic cars globally and/or consigning their automobiles.

Our years of experience has solidified our position as the trusted exotic car dealer and broker in California and UAE (Dubai). WM Elite Int'l is more than just an exotic car dealer and brokerage, we treat our customers better than family.

What makes us different, we combine both an auto dealer with an auto broker to satisfy our customer's needs.

	AUTO BROKER	AUTO DEALER
WHAT IS	<p>Automotive broker is simply the professional (hired by you) who assists you in the process of buying a car.</p> <p>In most cases, consumers do not need to set foot in the dealership as the automotive broker locates, negotiates and obtains the desired vehicle on behalf of the consumer.</p>	<p>Automotive dealers are the salespersons you find at various car dealerships.</p> <p>The salesperson greets you and show you around, while describing the specifications and prices of each vehicle.</p> <p>They will guide you through the buying process and describe the financing options available to you.</p>
ADVANTAGES	<p>Brokers offer the following advantages:</p> <ul style="list-style-type: none"> You dont have to worry about visiting different dealerships to find the car of your choice. You save time as they manage the entire buying process on your behalf. A broker's negotiating skills,will fetch the best price possible. You can enjoy Broker discounts due to their relationships with a vast number of dealerships. An experienced auto broker can assist in exotic car import and export 	<p>Purchasing a car from a dealer, offers the following advantages:</p> <ul style="list-style-type: none"> You are provided with immediate answers to all your questions. Because you see the car, you have peace of mind throughout the buying process. Going to a dealership exposes you to a wide variety of options you may not have considered. You can take the car for a test drive.
WHICH IS BETTER	<p>Depends on the situation. If you have time and more importantly, car knowledge, it may be more suitable for you to deal directly with an auto dealer. Whereas, if you do not have the time and the car knowledge required, it would best suit you to opt for an auto professional.</p>	

WM Elite Int'l Services:

WM Elite Int'l Inc.

— US - based company —

Event Planner

WM Elite Int'l Events is an integrated events agency that uses exceptional creativity and storytelling to transform events into unforgettable experiences. We have masterminded some of the most successful events for local, regional and international brands: from high profile launches to award ceremonies, expos, conferences, exhibitions, experiential events, trade shows, galas, fun days and more.

WM Elite Int'l event planners spend time speaking with clients to figure out what the clients want and need. Planners can then offer suggestions, and then they may run with a specific idea, planning every last detail of the event. That includes pinning down the date, time, location, budget, entertainment, food and favors, as well as any other details of the event.

Let WM Elite Int'l Event's experts manage every detail for a flawless experience. We seamlessly connect your business goals with your event journey, bringing the theme to life through priceless memories.

Tech Development

Through its Research, Development, and Deployment work, WM Elite Int'l is pursuing technologies to improve grid reliability, efficiency, flexibility, functionality, and security; and making investments and sponsoring demonstrations aimed at bringing new and innovative technologies to maturity and helping them transition to market. It is essential that key stakeholders – including Federal and State government agencies, electric power companies, equipment manufacturers, systems developers, and consumers – work together toward a shared vision of the future, with full understanding of one another's roles and responsibilities.

As the primary office in the Federal government with stewardship responsibilities for electricity delivery, WME Elite Int'l provides the leadership and continuity to align these resources, support research and development of new technologies and place them on a path to commercialization.

WM Elite Int'l provides current, hands-on experience and expertise with developing technology into enduring defense capabilities with relevant operational context while interacting with an established stakeholder base.

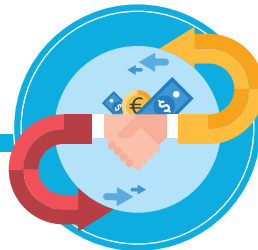

Professional Financial Services - Tax Services

The financial plan details the actions needed to achieve your goals. Through the plan, we provide annual investment targets, commentary on your current situation, and recommendations on how to better utilize your resources. For those who continue to work with us as wealth management clients, we review the plan annually and update it as needed— typically, every five years or when a client is anticipating a change in financial circumstances, such as retirement or job change— at no additional cost.

We do not buy deals based on credit score, nor do we have an internal scoring system. We truly take a common sense approach on all applications and our local offices handle everything in-house, including purchasing contracts, funding contracts and servicing accounts.

At WM Elite Int'l , we help our clients with all of these concerns and more. We work with individuals, families, and small business owners that are seeking financial planning and wealth management services.

Real Estate Services

WM Elite Int'l, one of the fastest growing commercial real estate companies, provides nationwide brokerage and consulting services. Industry knowledge, experience, and attentive customer services drives WM Elite Int'l trajectory.

A streamlined approach eliminates non-productive tasks; Agents have the ability to focus their time and efforts on clients, not corporate bureaucracy.

The modern real estate market requires an aggressive marketing strategy, utilizing innovative concepts including current social media trends. WM Elite Int'l delivers what the market requires.

WM Elite Int'l, provides a full complement of real estate brokerage and consulting services. Our collaborative culture, industry knowledge, extensive experience, and dedicated customer service will deliver successful real estate solutions.
